Liberty Latin America Selects Identidad Technologies as Preferred A2P and P2A Partner for Liberty Puerto Rico Network

Effective October 1, 2024, Identidad Technologies strengthens partnership with Liberty Latin America to enhance local communication services.

September 16, 2024 – Identidad Technologies is proud to announce that Liberty Latin America has selected us as the **preferred partner for managing A2P and P2A SMS traffic on the Liberty Puerto Rico network, starting October 1, 2024**. This partnership further strengthens our long-standing collaboration with Liberty Latin America and highlights our shared commitment to providing seamless, reliable, and high-quality messaging services across the region.

This new agreement builds on our proven track record of managing both International A2P and ILD services for Liberty Latin America since 2022. Identidad Technologies was appointed the exclusive gateway for International A2P SMS and ILD business across multiple Caribbean and Latin American markets. Through our efforts, we have ensured the highest standards of service quality and reliability in the region, helping Liberty Latin America maintain its leadership position.

Identidad Technologies remains committed to continually enhancing its technology and services, with a focus on supporting Liberty Latin America in maintaining its leadership position in the region. This new partnership in Puerto Rico is yet another step forward in our mission to help businesses and consumers communicate more effectively.
